

ANTHONY J. FICO
Vice President

EXPERIENCE:

More than forty years experience in the construction industry, including fourteen years in public service. For AT&T, he was directly responsible to provide the development and implementation of Project Management procedures, and then the hands-on management of a variety of specialized construction program management services at more than 25 AT&T locations in 16 states. Experience with office buildings includes the construction management of the Gwinnett Justice Center in Lawrenceville, Georgia; the vertical expansion to the Collier County Government Center in Naples, Florida; the Value Analysis and re-bid administration of the James K. Polk State Office Building in Nashville, Tennessee and the Project Management of the Mississippi Methodist Center in Jackson, Mississippi. Mr. Fico has also provided Funds Disbursement Management Services on hotel construction projects for Barclays Bank, N.A.

Mr. Fico served Heery Program Management, Inc., a world-class construction management firm, in a variety of management positions. He sat on the Boards of Directors of both Heery International, Inc. and Heery Program Management, Inc., and was the principal representative for all professional services provided by his divisions. He has considerable experience with multi-contract, multi-site construction programs.

Mr. Fico developed contract documents, general conditions, procedures manuals, owner/contractor agreements and owner/designer agreements for a variety of clients, including the States of Massachusetts, Indiana, Ohio and Utah; the Cleveland Regional Transit Authority; the School Boards of Wake County, North Carolina, and Brevard County, Florida; NASA; AT&T; the Collier County Government in Florida and the City of Houston, Texas.

Completing his public service career in the position of Deputy Director of Construction for New York City's Parks, Recreation, and Cultural Affairs Administration, Mr. Fico supervised more than seventy professional public servants in the administration of the agency's construction and professional consultants' contracts. Annually, these included more than 200 construction contracts and 75 consultant agreements.
